Dung, H.C.: Acupuncture points of the cranial nerves, 80
Acupuncture points of the cervical plexus, 94

Finckh, Elizabeth: Tibetan medicine—constitutional types, 44

Hau, D.M.: Effects of electroacupuncture on leukocytes and plasma protein in the x-irradiated rats, 106

Hsieh, Ming-Tsuen: see Lin, Wen-Chuan, 124

Hsu, Mei-Feng: see Wang, Jih-Pyang, 116

Lin, Wen-Chuan, Ming-Tsuen Hsieh, Huei-Yann Tsai and Chieh-Fu Chen: The pharmacological studies in central nervous system on the interaction of Taiwanese Veratri Formosani Rhizoma and Sophorae Radix, 124

Lundeberg, T.: Vibratory stimulation for the alleviation of pain, 60

A comparative study of the pain alleviating effect of vibratory stimulation, transcutaneous electrical nerve stimulation, electroacupuncture and placebo, 72

Mahdihassan, S.: Outline of the beginning of alchemy and its antecedents, 32

Mahdihassan, S.: Tan, cinnabar as drug of longevity prior to alchemy, 50

Schiffeler, John Wm.: Chinese folk medicine: A study of the Shan Hai Ching, II, 2

Teng, Che-Ming: see Wang, Jih-Pyang, 116

Tsai, Huei-Yann: see Lin, Wen-Chuan, 124

Wang, Jih-Pyang, Mei-Feng Hsu and Che-Ming Teng: Antihemostatic effect of Hsien-Ho-T'sao (*Agrimonia Pilosa*), 116

Zaffar-Ul-Hassan: Acupuncture and developing countries, 56

Subject Index

Acupuncture and developing countries, 56

Acupuncture points,

of the cranial nerves, 80

of the cranial nerves of mixed fibers, 82

of the cervical plexus, 94

of the facial nerve, 87

of the great auricular nerve, 100

of the lesser occipital nerve, 99

of the supraclavicular nerve, 101
of the transverse cervical nerve, 100

of the trigeminal nerve, 84

Alchemy, the art of, 33

Alchemy, the beginnings of, 32

Alchemy and longevity, 32, 50

Antihemostatic effect of Hsien-Ho-T'sao (*Agrimonia Pilosa*), 116

Blood magic, the active principle of resurrection drug, 34

Chinese folk medicine, 2

Effect of Hsien-Ho-T'sao:

on blood coagulation, 117

on platelet aggregation, 120

Effect of Veratri Formosani Rhizoma and Sophorae Radix:

on locomotion activity, 127

on whole brain biogenic amine level, 128

Electroacupuncture, effect of on leukocytes and plasma protein in the x-irradiated rats, 106

Hsien-Ho-T'sao (*Agrimonia pilosa*), antihemostatic effect of, 116

Longevity, the ideal drug of, 40

Naloxone, effect of on induced pain relief of vibratory stimulation, 63, 67

Nan Shan Ching (the classic of the Southern Mountains), 8

Pain alleviation, a comparative study of methods of, 72

Pain, the alleviation of:

by electroacupuncture, 74

by transcutaneous electrical nerve stimulation, 74

by vibratory stimulation, 73

Pharmacological studies of Taiwanese Veratri Formosani Rhizoma and Sophorae Radix on central nervous system, 124

Resurrection, the earliest drug of, 34

Shan Hai Ching (the classic of the Mountains and Seas), 2

Taiwanese Veratri Formosani Rhizoma and Sophorae Radix, the interaction of on central nervous system, 124

Tan, cinnabar, as drug of longevity, 50

Tibetan medicine, 44

Tibetan medicine, basic principle of, 45

Veratri Formosani Rhizoma and Sophorae Radix, effect of:

on locomotion activity, 127

on whole brain biogenic amine level, 128

Vibratory stimulation for the alleviation of pain, 60

Subject Index

Acupuncture analgesia, the roles of afferent fibres, 32
Acupuncture points:
along the common peroneal nerve, 156
of the anterior cutaneous nerves, 41
of the brachial plexus, 49
of the lateral cutaneous nerves, 43
of the lumbar plexus, 133, 137
of the preaxial nerves, 57
of the postaxial nerves, 50
of the posterior cutaneous nerves, 45, 136
of the posterior primary rami, 133
of the sacral plexus, 145
of tendons and ligaments, 63
of the tibial nerve, 153
of the typical spinal nerves, 39
outside the sacral plexus, 155
in treatment of acute appendicitis, 128
in treatment of acute infection of the biliary tract and cholelithiasis, 129
in treatment of acute intestinal obstruction, 128
in treatment of acute pancreatitis, 130
in treatment of acute perforation of peptic ulcer, 128
Acupuncture therapeutic, mechanism of, 130
Acupuncture therapy in acute abdomen, 127
Alternations of *Clonorchis sinensis* EPG, 65
Antiplatelet effect of Hsien-Ho-T'sao (*Agrimonia Pilosa*), 109

Ba-wei-wan (hachimijogan), 71

Chhi, 9
Chinese cosmology—the five elements, 7
Cinnabar-gold as the best alchemical drug of longevity, 93
Clonorchis sinensis, 65, 119

Drug plants and health care, 2

Effects of Ba-wei-wan on lipoprotein-cholesterol and lipoperoxide, 71
Effect of electroacupuncture on chronic pain, 33
Effects of herbs on *Clonorchis sinensis*, 119
Effect of hydroxycamptothecin on RNA and DNA polymerases, 23
Electroacupuncture, the treatment of chronic pain by, 33
Ethics in Ayurved, 15

Ginsenoside, quantitative analysis of, 77
Ginsenoside compositions of *panax ginseng*, 89

Health care and drug plants, 2
Hsien-Ho-T'sao (*Agrimonia Pilosa*), antiplatelet effect of, 109
Hydroxycamptothecin on RNA and DNA polymerases, 23

I-Chhi, 11
Indian and Chinese cosmologies, 5
Indian cosmology, the earliest form, 6
Indian cosmology, the final form, 6

Longevity drug, cinnabar-gold as the best, 93
Makaradhwaja (cinnabar-gold), the best alchemical drug of longevity, 93

Panax ginseng, ginsenoside compositions of, 89
Panax ginseng, quantitative analysis of ginsenosides in, 77
Psychiatric training and therapies in Ayurved, 13
